### EXPERIENCE

#### Software Engineer

Accedo 2021 - 2022

I work at Accedo as a Software Engineer in a team tasked to port and develop new features for a streaming app. My responsibilities include:

**Development of new features:** I develop new features for a streaming app using ReactJS.

**Porting:** I port the streaming app to new devices like smart TVs, consoles or set-top boxes.

#### Software Engineer & Project Manager

g-stocks Global Investments. 2018 - 2021

I worked for g-stocks first as an intern, then as a Software Developer & Project Manager. My responsibilities included:

**Webapp Developer:** I developed a webapp targeting desktop & mobile devices built using ReactJS & Scss.

**Project Manager:** I organized and managed a team of 3 people in the development of an IOS app for the iPhone using Swift.

**App Developer:** I developed a desktop application using JS, D3.js, CSS3 & HTML5.

**Web Developer:** I maintained & added features to an existing responsive website using PHP & Symfony.

#### Webapp Designer & Developer

Freelance. 2019 - 2022

I design & develop web applications including responsive websites & Progressive Web Apps. I use ReactJS and occasionally Next JS for the frontend and NodeJS, Express and MongoDB for the backend.

You can check some of this projects in my portfolio down below.

### PORTFOLIO

A portfolio showcasing the apps I developed.
